Palo Alto, California

Dear Doctor Lederberg:

I have been in touch with Dr. Crow relative to the problem of a follow-up of the second generation offspring of survivors of the A-bombs in Hiroshima and Nagasaki. In the course of this, he told me of two informal letters from you touching the program of ABCC.

I am therefore writing to you to tell you how glad we were to learn of your visit to ABCC and how much we would welcome your thoughts and suggestions if you have not already sent these to the Director of ABCC, Dr. Darling.

We are planning a review of the major components of the program in the fall in anticipation of a full-dress conference with Dr. Darling and our Advisory Committee in November.

Sincerely yours,

R. Keith Cannan
Chairman of Division
